About Me

Title : Expert in PHP | MEAN stack | React Developer

Dear clients.

I am Gabriel Consolin. Job perfection and client satisfaction is my aim. Web development is not just my job. I pride myself on working hard and delivering the best results on time,everytime. I have the knowledge and drive necessary to complete a wide variety of complex projects.

With 5+ years of experience in website and web application development, I have an excellent understanding of how technology can be used to align the requirement of both the business and the customer.

I'm a professional PHP developer, mostly I work with Laravel, CI , NodeJS, AngularJS, React, jQuery, AJAX, Bootstrap and many more technologies, but don't hesitate to work with any framework.

I enjoy working on websites and that's what I've been doing every day since last 5+ years. I work quickly and efficiently, with attention to details, always online.

Client satisfaction and quality work are my top priorities.

I will be glad to help you with any tasks for web development/customization/maintenance and happy to answer any questions you have.

It's important to me to build long term relations with clients, so I am primarily looking for long term projects.

I am flexible with your working hours and am happy to work closely with any existing freelancers you work with.

I look forward to hearding from you!

Education

Universidade do Anhembi Morumbi
2012-2017 Universidade Inc.

In 1970, Anhembi Morumbi was founded as the first college in Brazil to offer higher education in the Tourism sector. Back then, many people did not quite understand the breadth of the Tourism segment, or even its importance to the country's economy. Concepts such as tourism potential and hospitality were introduced. And most importantly: a process of professional qualification started, which is increasingly valued in the labor market.

Experience

Fullstack-developer
Dec 2014 - Current BBD Participacoes

From Dec 2014 I worked as a fullstack-developer.
